I. Reservations, Rules & Restrictions

A. Checking Out Videos

1. All videos are made available to members of MWCF and AMIC free of charge.
2. Checking out a video entitles you to view and show it to your employees for a total period of two weeks. **Please return videos promptly within 14 days of receipt. A replacement fee of \$350.00 will be assessed for any video not returned.**
3. To obtain a video, fill out the enclosed order form. Videos are loaned on a first-come, first-served basis.
4. A maximum of 3 videos may be checked out by the same entity within the same time period.

B. Rules For Care of Videos

1. Only responsible and experienced operators should be allowed to operate the DVD Player.
2. Keep your DVD Player clean.
3. Stay with the DVD Player during operation.
4. In the event of video damages, do not repair. Return the video and enclose a note saying "DAMAGED".

C. Important Restrictions

1. These Videos are loaned only for educational purposes.
2. Do not allow employees to take the videos home to view.
3. Video or tape copies may not be made of any of our videos.

II.

Video and Safety Meeting Recommendations

Learning increases dramatically through effective use of videos and other audiovisuals. Tests have shown that trainees can learn as much as 55% faster, and remember up to 70% more information thru the use of videos as compared with oral instructions alone. The following are pointers on the effective use of videos.

A. Selection

Select a video that most closely fits your employees' needs. Always preview a video before you schedule a showing, as a preview is the only way to know that it is right for your purpose. Make notes on any points in the video that you'll want to discuss after the showing.

Consider using discussion, practice demonstrations, or tests, for reinforcing or expanding upon the video message. Ask a local expert, or a knowledgeable employee, to demonstrate what was shown in the video. Avoid a set routine such as "monthly safety movies". Use videos to break the monotony of safety meetings, not to create monotony.

B. Introducing a Video

Tests have proven that an effective introduction of a video and a review of it after a showing can double the video's educational value. Prepare your audience by informing them about the video's major purpose and about any points requiring clarification or emphasis. Arouse interest by explaining how the audience will benefit from the message. Make them want to see the video. Point out how the message applies to their jobs or their lives. Ask a few questions to get your viewers to think about the subject. Create a "climate of interest" before the showing.

C. Showing

Immediately after you start the video, double check to make certain that the volume and focus are correct. Remain with the group throughout the entire showing as this helps to maintain full interest.

D. Follow-Up

Discussion usually reveals what has been overlooked or misunderstood. Clear up all misunderstandings and fill in on what has been overlooked. Discussion may reveal a need for additional education on the subject. Any type of follow-up activity that reinforces or expands upon the video's message or that promotes actual doing after learning is highly valuable.

E. Make Videos Pay Their Way

Costly work time is invested in video showings. That's why it is important to prepare carefully for the use of videos and plan follow-up efforts so that you can receive all the education benefits they have to offer. Videos have more ability to arouse and maintain interest, to inspire, to communicate ideas and to tell "how" and "why" than do any other kind of educational media. With advance planning, proper use, and vigorous follow-up, you will get full value from videos....and from any other audiovisuals that you employ.

The following model safety meeting outline may be used to help videos pay their way.

Model Safety Meeting Outline

1. Select appropriate topic. It's best to concentrate on one problem area than to use the shotgun approach and briefly mention numerous topics.
2. Review past accident injury experience. Let employees know why this topic is being covered.
3. Ask how each accident could have been prevented. Try to get employees to participate in the meeting.
4. Inform employees of proper procedures to be followed. Be thorough and encourage questions. (The employee safety coordinator will provide information when possible.)
5. Provide an actual demonstration. Let a foreman or qualified employee go through the procedure.
6. Show a supporting video, slide show, etc., if available. Videos are a great teaching aid when used properly. Employees retain information much easier when the message is combined with a visual image.
7. Close with comments on the importance of following procedures. You should also stress benefits to the employee, the employee's family and the municipality.
8. Ask for any questions or comments from employees.
9. Post proper procedure, poster, etc., on a bulletin board for employees to review at their convenience.

Video Index By Description

Building Construction

2.008 Jobsite Safety Inspection

When you follow safety standards everybody wins: employees are safe, work is completed efficiently and costs are under control. Working safely benefits everyone. This video teaches how to complete a thorough jobsite inspection.

Run Time: 18 Minutes

2.009 Personal Protective Equipment

Because of the nature of construction work, hazards exist in practically every work place. Some PPE discussed in this video are: Eye Protection, Hearing Protection, Head Protection, Respirators, Hand Protection, High Visibility Work Wear, Foot Protection and Fall Protection

Run Time: 24 Minutes

2.010 Housekeeping on the Jobsite: A Plan for Success

On any jobsite safety is everybody's responsibility. Four areas that affect the health and safety of the entire workplace that are discussed in this video are: 1)People 2)Equipment 3)Materials and 4)Environment. A safe environment starts with an effective housekeeping plan. We have to plan for a safe work environment, it doesn't just happen.

Run Time: 19 Minutes

2.011 Safety Orientation

This video encourages employees to have a positive attitude about safety as well as provides introductory safety training on some of the most common workplace safety issues. Some topics that are covered are: right attitude, slips, trips, falls, ladder safety, fall protection, back safety, electrical safety, hand and power tools, control of hazardous materials, confined spaces, scaffolds, trenching and shoring, PPE, fire safety and first aid.

Run Time: 20 Minutes

Electrical Service

3.009 **Electrical Arc Flash Safety**

Electrical Arc Flash is a short circuit in the air that has the potential to be a very large short circuit through the air. This can cause extremely dangerous conditions. This video explores these conditions and OSHA regulations that are in place to protect you. It will also help you identify whether or not you are at risk.

Run Time: 13 Minutes

3.010 **Understanding and Working Safely With Electricity: The Basics**

We use electricity all the time and often we don't treat it with the respect it deserves. This video will help you to understand how electricity acts, how it can be approached and the hazards it presents. This video will also show you how these hazards can be controlled. This should be the beginning and not the end of your training in electrical safety. Some primary hazards of electricity include: shock, burns, arc-blasts, explosions and fires. Other topics covered in this video are: lightning safety, electrical storms, extension cords, electrical equipment and grounding, overloading circuits, electrical tools, water and electricity, power lines, heating appliances, fuses and circuit breakers.

Run Time: 16 Minutes

3.011 **WSI: Lockout Tagout**

A workplace safety investigation (WSI) is done on a lockout tagout fatality.

Run Time: 25 Minutes

3.012 **Electrical Safety for Qualified Workers Refresher**

Electricity is a powerful force that can cause serious injury and death. When it comes to electrical job tasks, it only takes an instant to turn a momentary mistake into a fatality. That's the purpose of this program—to explain the safety precautions these employees must always take to avoid needless tragedies while performing any type of electrical work. Topics include the definition of a qualified worker, approach boundaries, the shock hazard of electricity, voltage-rated gloves and PPE, the arc flash boundary, PPE Levels of arc flash protection, creating and verifying an electrically safe work condition and exceptions when energized work is allowed.

Run Time: 13 Minutes

Fire Service / Emergency

4.014 **Disaster Safety: Aftermath and Cleanup**

No matter what type of disaster you are responding to, this video will provide you with a good understanding of the various conditions and situations you may face. You will learn about assessing hazards, safely handling and clearing debris, dealing with animals, handling human remains, personal protective equipment, handling stress and protection from hazards such as lead, asbestos and other chemicals.

Run Time: 17 Minutes

4.015 **Back Safety for First Responders**

While your EMTs, firefighters and law enforcement officers take care of others, you have to take care of them. To keep them healthy, lean on these solid safety techniques and exercises to keep their back muscles strong and flexible. Some topics discussed in this video are: 1)Back structure, 2)Repetitive stress illnesses/reverse stretching, 3)Common first responder back injuries, 4)Proper lifting techniques, 5)Training points for handling stretchers, gurneys and fire hoses.

Run Time: 19 Minutes

4.016 **Occupational Disease Prevention for Firefighters**

During the course of their careers, firefighters may be exposed to a number of air contaminants and other environmental factors that can cause cardiovascular disease, cancer and noise-induced hearing loss. This video discusses some of the common exposures firefighters face in the field and in fire stations and what they can do to reduce their risk of contracting occupational diseases. Some topics covered are: medical programs, fitness programs, nutrition programs, PPE and on-scene incident management. This video ends up with a discussion of the problems facing smaller fire departments to acquire the resources needed to implement needed programs, and offers solutions to solve this dilemma.

Run Time: 25 Minutes

4.017 **Emergency Response Driving**

As an emergency responder it's your job to save and protect lives and property. It's critical that you arrive to the scene of an incident quickly and safely. There are risks involved anytime you get behind the wheel of a vehicle, but when you are driving an emergency vehicle with lights and sirens blaring, those risks are multiplied.

Run Time: 17 Minutes

Fleet / Maintenance Shop / Driving

5.014 Forklift Safety: Real Accidents, Real Stories

In this video you will hear thought-provoking stories of real forklift accidents and the far-reaching effects such incidents can have. The video discusses preventing injuries, accidents and property damage during the use of fork lift truck training.

Run Time: 16 Minutes

5.015 Fueling A Machine

Refueling a machine can be dangerous.

Run Time: 5 Minutes

5.023 Machines, Operators and Guards: Real Accidents, Real Stories

This video follows the personal stories of three workers who have been affected or injured at work by breeches in machine guard safety procedures. Emphasis is placed on the importance of following safe general machine guarding procedures, proper guard inspection before use, and practicing awareness while using machines.

Run Time: 13 Minutes

5.032 Right-of-Way Mowing Safety

This video teaches a safer way to mow grass on and off right-of-way. It also provides maintenance and safety tips.

Run Time: 23 Minutes

5.035 Shock Hazards – Power Tools

Learn simple ways to prevent electric shock from power tools.

Run Time: 5 Minutes

5.049 Driving Distractions of the Professional Driver

This video is designed for the driver who has unique distractions tied into their daily routine of driving for their organization.

Run Time: 17 Minutes

5.051 Trucks, Vans and Other Delivery Vehicles

This video addresses the many unique aspects of driving vehicles where weights change, blind spots and other hazards.

Run Time: 17 Minutes

Fleet / Maintenance Shop / Driving (continued)

5.052 Why Do We Drive the Way We Do?

When many drivers get into their vehicles, they go on “autopilot” while others focus intently on their driving to get to where they are going as quickly as possible. Both drivers have to make choices behind the wheel. They are taking risks and putting themselves and others in danger.

Run Time: 11 Minutes

5.053 Landscaping Equipment: Safety and Maintenance

This video covers topics from how to properly dress when using landscaping equipment to how to maintain equipment. Some of the equipment discussed are mowers, string trimmers, chainsaws and chippers. How to handle and store chemicals such as fertilizers and herbicides are also discussed.

Run Time: 16 Minutes

5.054 Backing, Parking and Intersections

This video describes how to be safe when you must back up and when you park a vehicle. It also discusses safety in the three types of intersections: controlled intersections, uncontrollable intersections and blind intersections.

Run Time: 18 Minutes

5.055 Distracted Driving: At What Cost?

It is estimated that 25 to 50 percent of vehicle crashes involve distracted drivers. This video describes exactly what a distraction is. It also interviews a person who knows firsthand the tragic consequences of distracted driving.

Run Time: 14 Minutes

Run Time: 10 Minutes (Concise Version)

5.056 Safe Driving Tactics: The Blindfold Effect

We would never try to drive blindfolded, but we might as well be when we let distractions get in our way. This video discusses how to anticipate, adjust and assume nothing while driving. It also discusses intersections, backing and following too closely.

Run Time: 20 Minutes

5.057 Backhoe Safety: Inspection and Walk Around

Backhoes are great pieces of equipment. They must be inspected before you use it, every time you use it. It is the law. This video is about how to perform a thorough and accurate pre-shift backhoe inspection.

Run Time: 14 Minutes

Fleet / Maintenance Shop / Driving (continued)

5.058 Winter Driving: When the Rules Change

The video addresses: * Vehicle preparation for winter * Adjusting schedules for winter driving conditions * Maintaining good visibility * Winter driving techniques, including intersections, cornering, skid control, braking and slowing down * Winter survival supplies and techniques

Run Time: 16 Minutes

5.060 Electrical Safety: Basic Principles

Wherever there are possible electrical hazards to people, equipment and property, your personal safety depends on understanding and practicing three things: (1) basic principles of electrical safety, (2) safe work practices and (3) correct response to emergencies. This video covers key points about basic principles of electricity.

Run Time: 15 Minutes

5.061 Road Rage & Aggressive Driving

In any discussion of Drivers Safety, one of the most dangerous hazards is the Human Factor the unpredictability of all the drivers on the road and the way that emotion can influence the way we drive. Road Rage is responsible for over half of the fatal crashes on our roadways each year.

Run Time: 12 Minutes

5.062 A DUI Story....What If?

Alcohol is society's legal, oldest and most popular drug. Since it is legal, most people don't consider it a drug, yet it can considerably influence and alter our thinking, judgment and motor skills. Those are three important things you will need when you operate a vehicle or any piece of machinery. This video tells the story of a man who was driving a company vehicle home. He stopped to play pool and hang out with some friends on his way home. He made some poor choices. Learn about how this event changed his life and the consequences he has had to face.

Run Time: 28 Minutes

5.063 Defensive Driving for Government Employees

As a government employee, your highest risk of death is behind the wheel. Sometimes accidents cannot be avoided, but you can change your habits and reduce the chances. Some of those basic driving techniques that you learned may have worn off. This video revisits those good driving practices and principles as well as highlights some new issues that will make you a safer and more courteous driver.

Run Time: 19 Minutes

Fleet / Maintenance Shop / Driving (continued)

5.064 Backhoe Operator's Safety and Responsibility

Backhoes are one of the most common types of construction equipment around today. The backhoe can do almost anything. Backhoe operators should be trained and authorized by the company. They are skilled professionals and are responsible for an expensive piece of equipment as well as the safety of those that are working on the project. This video also discusses backhoe operator's PPE and the backhoe's capabilities and limitations.

Run Time: 8 Minutes

5.065 Bucket Truck Safety

Bucket trucks are great tools that are used in a broad range of industries for a variety of uses. But they can be dangerous. This video discusses the hazards associated with bucket trucks and steps you can take to help minimize your risks and help keep you and those around you safe. Also covered in this video are the daily inspection, work site inspection, minimum approach distance, fall protection, tip over prevention, collision hazards and electrocution hazards associated with bucket trucks.

Run Time: 12 Minutes

5.066 Welding Safety: High Impact

Nowhere is personal safety more important than in welding and cutting. This video will help you understand why welding accidents happen and what you can do to protect yourself. Other topics covered in this video are PPE, ventilation, handling and storage of cylinders, equipment inspections and understanding fire and safety requirements for welding and cutting.

Run Time: 19 Minutes

5.067 Distracted Driving (Focus on Texting and Driving)

There are three main types of distraction: Visual-taking your eyes off the road, Manual-taking your hands off the wheel, Cognitive-taking your mind off what you're doing. Distracted driving is any non-driving activity a person engages in that has the potential to distract him or her from the primary task of driving and increase the risk of crashing. Some forms of distracted driving are: cell phone use, texting while driving, eating, drinking, talking with passengers, as well as using in-vehicle technologies and portable electronic devices. Texting is the most alarming because it involves all three types of distraction.

Run Time: 19 Minutes

5.068 Defensive Driving: 15-Passenger Vans

Fatal Rollovers and other accidents involving 15-Passenger vans occur because the drivers are inexperienced and untrained. This valuable program will provide your drivers with important safety tips to help them operate the vans safely, protect passengers and avoid accidents.

Run Time: 10 Minutes

Fleet / Maintenance Shop / Driving (continued)

5.069 Defensive Driving: When Good Weather Goes Bad

Inclement weather can have a dramatic effect on driving conditions. Viewers will be shown how to handle their vehicles in winter ice, bright sun, winds, snow and rain. You will also see an overview of the general safety measures drivers must abide by, such as vehicle braking distance or truck stopping distance.

Run Time: 16 Minutes

5.070 Driving Distractions of the Everyday Driver

This video addresses some common driver distractions like cell phone use. Other distractions covered in this program are: Comfort controls and GPS technology, as well as how to handle additional unexpected distractions inside and outside of the vehicle.

Run Time: 18 Minutes

5.071 Forklift Safety: The Triangle of Stability

This forklift safety video educates forklift operators on how to safely maneuver their vehicles. It focuses on all aspects of forklift stability, including the stability triangle, working with different surfaces, carrying loads properly, proper braking techniques, preventing property damage and how to move through any environment safely.

Run Time: 10 Minutes

5.072 The Safe Operation and Use of Jackhammers

Most injuries associated with Jackhammers are from improper lifting and usage. This video explains the proper ways to handle a jackhammer and what PPE is necessary.

Run Time: 5 Minutes

5.073 Dump Truck Safety

The dump truck is very versatile. It can carry out many tasks. This video covers the maintenance and operation of typical dump trucks.

Run Time: 10 Minutes

5.074 Machine Guards: Safety and Responsibility

Machine guarding protects people from getting cut or seriously injured. This video explains the basics of machine guards and tells you how to work safely around equipment and machinery.

Run Time: 8 Minutes

5.075 Aerial Lifts

This video will help you to understand the safety basics of aerial lifts. Different types of aerial lift equipment are discussed. Other topics covered are: prestart inspection, workplace inspection, PPE, fueling and shutting down.

Run Time: 9 Minutes

Fleet / Maintenance Shop / Driving (continued)

5.076 Stay on the Safe Side of the Street

Crime is a part of everyday life in America. No one is out of reach. Utility workers are particularly vulnerable to danger since the service they provide carries them into any and every type of environment. In this video the utility worker will learn what to do when confronted with danger and techniques of how to protect themselves on the job.

Run Time: 22 Minutes

5.077 Distracted Driving: Real Accidents, Real Stories

This video focuses on the personal stories of workers and their families who were negatively affected by distracted driving accidents. Discussed in this video are cell phone use, paperwork and on-board computers, among other distractions. These realistic situations have a resonating impact and make the lessons in this driving safety course easy for viewers to identify with and learn from.

Run Time: 16 Minutes

5.078 Distracted Driving: Real Accidents, Real Stories 2

In this powerful production, gut wrenching and life changing testimonials are illustrated to the audience. Some distractions covered in this film are how conversations can become a distraction, cell phones, navigation systems, and other distractions.

Run Time: 15 Minutes

5.079 Driving Safely in the Hazards of Winter

This safe driving video informs you of the risks you may face when driving in winter ice, poor visibility, strong winds, snow, rain and how to handle each road condition safely.

Run Time: 12 Minutes

5.080 Tractor Safety

This program provides tractor operators with “safety basics”, including vehicle operation, pedestrian safety, safe tractor operation, machine guarding, and pre-inspection checklists.

Run Time: 15 Minutes

5.081 Hand & Power Tool Safety

Hand and power tools are used every day in many types of business. They make our work easier and allow us to be more efficient. However, we often fail to see the hazards these tools present. This training program shows how accidents can be significantly reduced by applying good general safety rules, and reviews what hazards are associated with the specific types of tools we use.

Run Time: 17 Minutes

Fleet / Maintenance Shop / Driving (continued)

5.082 To the Point About Defensive Driving

This program provides an overview of the defensive driving practices all vehicle operators should follow to avoid costly and sometimes deadly traffic accidents.

Run Time: 10 Minutes

Gas Department

6.002 Oxyfuel Gas Cutting: The Sure Cut

Preventing spark and spatter when performing Oxyfuel gas cutting is essential for the welder's safety. This course details proper safety procedures for oxyfuel gas cutting. It covers Proper safety equipment, hook-up procedures and ventilation.

Run Time: 12 Minutes

6.003 Compressed Gas: Safety Awareness

Pressurized gases are used in so many ways that people take them for granted – to their detriment. Useful they may be, but they are dangerous if handled improperly. Ease the pressure with this program, which covers details on safe and proper handling.

Run Time: 22 Minutes

6.004 Safe Handling, Storage and Use of Compressed Gas Cylinders

The vast majority of gases used for industrial uses such as welding and cutting are purchased in cylinders. They must be maintained and labeled correctly. EXTREME caution is the basic safety rule whenever handling or using any compressed gas cylinders. This video covers some basic safety rules for handling and using compressed gas cylinders.

Run Time: 8 Minutes

General Accident Prevention

7.015 Head Injuries

Take all head wounds seriously. This video teaches you first aid procedures and how to know when to seek medical care.

Run Time: 5 Minutes

7.019 Housekeeping

Ignoring or failing to follow basic rules of good housekeeping can lead to serious safety problems. Poor housekeeping can also lead to other problems like security and inefficiency. Seven housekeeping rules are covered in this video.

Run time: 14 Minutes

7.026 Tick Bite Prevention and Response

In this program, EMT/Firefighter/Best-Selling Author Martin Lesperance stresses the importance of early treatment of tick bites and precautions for preventing them in the first place.

Topics include:

- Various types of ticks and where they live
- How ticks spread diseases
- Lyme Disease
- Rocky Mountain Spotted Fever
- Preventing tick bites
- Tick removal

Run Time: 16 Minutes

7.028 Near Misses

Near misses are accidents that could have happened, but didn't. The video identifies sources of potential accidents.

Run Time: 5 Minutes

7.044 Space Heaters

Portable space heaters, while handy and convenient, can be dangerous when used improperly.

Run Time: 5 Minutes

7.045 Sorry, I Didn't Hear That

Work site noises can impair hearing. The threat of noise pollution is not a joke.

Run Time: 5 Minutes

General Accident Prevention (continued)

7.051 Fire Extinguishers

Knowing how to properly and safely use a fire extinguisher can mean the critical difference for your safety and the safety of your co-workers. Your employees will be trained on fire prevention tips, maintenance of fire extinguishers, and the PASS system of using a fire extinguisher.

Run Time: 10 Minutes

7.057 A Lift to Safety

Although important on many job sites, personnel lift baskets can be extremely dangerous. Proper procedures for a safe lift are reviewed.

Run Time: 5 Minutes

7.072 It's Up to Me

If you want a workplace that is injury free it is up to each and every employee to follow safety procedures and guidelines and take them seriously.

Run Time: 14 Minutes

7.078 Accidents Aren't One of Those Things: Refresher

This video has a former paramedic describing accidents that he has responded to that wouldn't have happened if proper safety procedures were followed.

Run Time: 12 Minutes

7.079 Tree Trimming Safety

Run Time: 20 Minutes

7.082 The Safe Operations of Utility Carts (Golf Carts)

Run Time: 10 Minutes

7.085 On The Road: The Lighter Side of Lifting

This video advises us on how to lift safely. Some suggestions are: (1) keep it close and keep the curves – in your spine, (2) build a bridge, (3) warming up, (4) stretching and (5) stance.

Run Time: 21 Minutes

General Accident Prevention (continued)

7.086 Responsibility: Stay in Control

No one comes to work planning to work unsafely, but sometimes we get in a hurry or have other things on our minds or just get careless. We need to take control of the situation and be responsible for our actions and reactions.

Run Time: 9 Minutes

7.087 Safety Guidelines for Every Employee

This video covers several very important safety topics that every employee should be familiar with such as personal protective equipment, bloodborne pathogens, hazardous communications and good housekeeping.

Run Time: 14 Minutes

7.089 Working Safely in Hot Environments

This video teaches how to recognize the symptoms of heat related illnesses such as heat rash, heat cramps, heat stress, heat exhaustion and heat stroke as well as how to prevent and treat them.

Run Time: 10 Minutes

7.090 Overexertion: Injury Prevention

Objects can wear and break down, but we often think of our bodies as indestructible. Overexertion type injuries are the highest percentage of worker compensations costs. These types of injuries are often associated with lifting, pushing, pulling, tossing and handling materials. In this video you will learn how the body functions, risk factors associated with overexertion type injuries and preventive measures you can utilize to reduce your exposure and prevent injuries. This video will educate and motivate your employees to make the proper decisions and lifestyle adjustments to ensure their health and safety.

Run Time: 14 Minutes

7.091 An Extra Effort For Safety Sake

Everyone is responsible and accountable for safety. Whether you are a new employee, a 20-year veteran or a plant manager, this program is ideal for everyone at your site. This video teaches key principles to help ensure an accident-free workplace. It also discusses hazards that cause workplace accidents such as overexertion, falls, moving vehicles, hazardous materials, electricity, confined spaces, etc.

Run Time: 15 Minutes

7.092 Dealing With Stress

Dealing with stress is a daily task for anyone balancing a full-time job and a normal life in today's world. It is your reaction to stress that can make you sick, not a stressful situation. This video will teach you how to identify stress and how to learn to cope with it. The secret to fighting stress is knowing yourself and understanding how your body responds to stressful situations.

Run Time: 16 Minutes

General Accident Prevention (continued)

7.093 Fire Extinguishers: Ready to Respond

This video teaches you what makes fires burn, the five different classes of fire and why you must use the right type of extinguisher to put out each kind of fire. You will also learn how to inspect a fire extinguisher to make sure it is ready when you need it and how to use a fire extinguisher effectively.

Run Time: 14 Minutes

7.095 Don't Bet Your Life on Unsafe Acts

This video shows several people taking short cuts and risking their lives in the process. When you do this you are basically betting your life that nothing will go wrong! This video examines some of the reasons people choose to place their lives in danger. We can learn to recognize and avoid making these types of tragic decisions.

Run Time: 14 Minutes

7.098 The Back Owner's Guide to Lifting and Stretching

The speaker in this video is an occupational therapist named Michael Melnik who speaks to groups around the country about lifting and stretching. He offers many tips to make lifting less harmful to our backs and gives us choices to make when we are lifting.

Run Time: 16 Minutes

7.099 The Newcomers

This riveting program follows five employees as they go through a busy day at work. Viewers then keep track of safety no- no's, watch the consequences and get shocked by the sobering twist at the end! This will give employees an eye-opening look at hazard recognition.

Run Time: 22 Minutes

7.100 Emergency Action Plan: The Team Approach

An emergency action plan is a detailed plan developed specifically for your company to outline emergency response procedures and to define employee responsibilities and actions. This program teaches the basics of the emergency action plan. You will learn about: evacuation procedures, assembly and check in, teamwork, practice and personnel responsibility – including your own.

Run Time: 19 Minutes

7.101 Personal Protective Equipment: The Right Choice

This video gives you a first-hand look at the tragic consequences when you do not wear the proper PPE. Watch a worker's testimony on how he was injured because he didn't wear the right equipment. Once your workers see what COULD happen, then perhaps, unlike the worker in this training program, they'd be more likely to take their PPE seriously. This video covers: (1)Wearing the right PPE for the job, (2)The importance of PPE, (3)Employer's and employee's responsibility, (4)Care and maintenance of PPE and (5)Different types of PPE.

Run Time: 20 Minutes

General Accident Prevention (continued)

7.102 Horizontal Directional Drilling: Safe Work Practices

This video is made by the Underground Contractors Association of Illinois. It provides valuable information on how to prevent accidents and injuries related to horizontal directional drilling operations.

Run Time: 24 Minutes

7.103 UCA Safety DVD

This video is made by the Underground Contractors Association of Illinois. It has segments on these topics: Auger boring, General Construction Site, Hazmat, Heavy Equipment Operations, Pipe Handling, Flagging Safety, Trench Shoring and Tunneling Safety. Each segment is approximately 20 minutes long.

7.104 Public Building Security: It's Everyone's Concern

For buildings that house government agencies, municipal buildings and customer service organizations, maintaining security and dealing with the public becomes a balancing act between public safety and public service. This video examines some security measures such as the use of I.D. badges, metal detectors, other screening methods, security guards, employee awareness and parking restrictions and discusses why these are necessary. It also explores ways of handling high-stress situations involving visitors to the building who may be frustrated and angry by the time they reach you.

Run Time: 18 Minutes

7.105 Groundskeeping Safety: Dealing with Bugs and Critters

Insects may be small critters, but they can cause serious and even fatal consequences. This program is designed especially for public works, utility, government employees, grounds maintenance personnel or other outdoor workers and is essential for insect protection and general safety in a work environment. Also covered are West Nile Virus, basic PPE, snakes, wasps, bees, fire ants, poison ivy, oak and first aid.

7.106 Groundskeeping Safety: Be a Pro!

As professional groundskeepers know, maintaining lawns, trees and shrubs requires potentially dangerous equipment and chemicals. Prune and refine your safety measures with this program. It explains how one can avoid unnecessary accidents by thinking: safe or sorry? It also covers: a general checklist for safety, tractors, riding mowers, push mowers, blowers, trim and brush cutting equipment, and a checklist for hazardous materials.

Run Time: 17 Minutes

7.107 Heat Stress for Public Employees: Seeing Red

Heat Stress, heat stroke, heat rashes and heat cramps are all dangerous to your employees. This training DVD will give them the knowledge they need to avoid the dangers of working in hot, humid conditions. Also discussed in this program are: acclimatization, hydration, proper clothing and signs of fatigue.

Run Time: 14 Minutes

General Accident Prevention (continued)

7.108 Protecting Your Feet: Learning the ABC's

People take their feet for granted. What is the result of that negligence? 100,000 injuries a year! Make sure your workers don't make the same slip-up. Show them the ways people can injure their feet. They will learn prevention basics and become familiar with ANSI's and OSHA's footwear standards with this program.

Run Time: 15 Minutes

7.109 Working Safely in Cold Weather

This video discusses a number of the hazards that working in the cold presents, such as cold stress, hypothermia frost bite & first aid for these conditions. It also shows you ways to plan ahead, such as how to dress & what to eat & drink, so you can protect yourself from these dangers. This program also gives you some tips on driving in cold, icy weather. For the purposes of this video, cold weather is considered anything below 59 degrees.

Run Time: 15 Minutes

7.110 A Practical Approach to Ladder Safety

Ladders are used to reach elevated areas in just about every type of job, industry and at home. There are many types of ladders and countless jobs performed with these valuable tools. Most of us are aware of the basic safety rules for ladders, but choose to ignore them, often taking our safety for granted when using ladders. Unfortunately this attitude leads to 300 deaths and 165,000 injuries each year. Our safety while on a ladder depends on our following safe work practices.

This video discusses the basic safety rules you should follow to keep from being injured or killed in a ladder related incident. Safe work practices must be followed EVERY time you use a ladder to ensure your safety, both at work and at home.

Run Time: 19 Minutes

7.111 Back Injury Prevention for Public Entities(Texas Municipal League)

Back injuries are prevalent and continue to be one of the leading on-the-job injuries experienced by public entity employees. This training Program is designed to address this ongoing concern by providing real scenarios faced by public entity employees performing daily jobs and tasks. This video was developed by the Texas Municipal League-Intergovernmental Risk Pool Loss Prevention staff.

Run Time: 28 Minutes

7.112 Workplace Bloodborne Pathogens

Workers in many different occupations are at risk of exposure to bloodborne pathogens, including Hepatitis B, Hepatitis C and HIV/AIDS. This exposure may be through needle sticks, sharp injuries, mucous membranes and skin exposures. Topics covered in this video include: epidemiology and symptoms of bloodborne diseases, modes by which bloodborne diseases are transmitted, exposure control plan, PPE, exposure prevention, signs, labels and containers, emergency procedures and follow-up procedures.

Run Time: 16 Minutes

General Accident Prevention (continued)

7.113 Workplace Fire Safety

Each year in the U.S., 70,000 – 80,000 workplaces experience a serious fire. About 200 employees per year die in these fires and another 5000 are injured. Fire safety becomes everyone's job at a worksite. Employers should train workers about fire hazards in the workplace and about what to do in a fire emergency. This video covers: how fireworks, preventing fires, classes of fires, preparing for a fire emergency and procedures to follow during a fire emergency.

Run Time: 10 Minutes

7.114 Personal Protective Equipment

Personal protective equipment, or PPE, is part of your employers program to keep you safe. This video discusses when PPE is needed, who provides PPE in the workplace, OSHA training requirements for PPE and different types of PPE.

Run Time: 24 Minutes

7.115 First Aid: Prepared to Help

Being first on the scene of a workplace accident can be cause for panic. But with the training provided in this program, you can be confident that your employees can keep their cool, respond swiftly and apply life-saving measures. Get first-aid tips and learn these emergency response principles: survey the scene, send someone to call for emergency response help, calm yourself, gain the confidence of the victim, and assess the victim's condition.

Run Time: 16 Minutes

7.116 CPR and AED: The Chain of Survival

Every two minutes, someone dies of sudden cardiac arrest. When it happens to someone in your workplace, can he or she survive such an event? Do your workers know the four links in the chain of cardiac survival? They are: (1) Early access to care, (2) Early CPR, (3) Early defibrillation or electric shock and (4) Early advanced cardiac life support.

Run Time: 11 Minutes

7.117 Hazards of Cell Phone Usage

This video demonstrates why cell phone usage can be dangerous when working conditions require full attention and concentration. It shows in realistic and sometimes humorous ways, how distractions can create potentially serious dangers to workers and to others

Run Time: 7 Minutes

General Accident Prevention (continued)

7.118 Safety Procedures for Lawn Mower Operators

This program covers a wide variety of mowers including striping rotary and reel mowers, fueling, trailering and more.

Run Time: 20 Minutes

7.119 Landscape Power Tool Safety

This video shows safety procedures for chainsaws, string trimmers, power blowers and power pole saws.

Run Time: 25 Minutes

7.120 **Hedge Trimmer Safety**

This video demonstrates information for using the hedge trimmer correctly

Run Time: 7 Minutes

7.121 **Video Guide to Chainsaw Safety**

The chainsaw can be a very dangerous tool if not used properly. This program demonstrates safety in every aspect of keeping the operator safe. This is a must see program

Run Time: 23 Minutes

7.122 **String Trimmer Safety**

The operator must remember that public safety is key. This tool can send projectiles in all directions. It also covers P.P.E., trimming on slopes and more.

Run Time: 15 Minutes

7.123 **Boating Safety**

Each year, more than 1,000 Americans die in boating accidents. Common boating hazards and how to avoid accidents are demonstrated.

Run Time: 5 Minutes

7.125 **Smoking**

Each year millions of smokers attempt to kick the habit. Popular methods of quitting and their effectiveness are covered.

Run Time: 5 Minutes

7.126 **Diabetes**

Adult diabetes affects nine million Americans and is responsible for 40,000 deaths per year. Learn to recognize its symptoms and get the right help.

Run Time: 5 Minutes

General Accident Prevention (continued)

7.127 **Seat Belts and Air Bags**

Every year, over 40,000 Americans die in traffic accidents, and another 3 million are injured. Air bags, combined with lap/shoulder safety belts, offer the most effective protection available for passenger vehicle occupants.

Run Time: 5 Minutes

7.128 **Golf Cart and LSV Safety: On and Off the Course**

Golf carts aren't just for the course anymore. Many industries are taking advantage of these and other low-speed vehicles (LSVs) for easy transportation. But with the increase of usage comes an increase of

incidents. In fact, thousands of golf cart incidents happen every year, many which are serious and sometimes even fatal

Run Time: 16 Minutes

7.130 Drowsy Driving: It's Your Wake Up Call

This video is full of important information for the professional driver who travels both short and long distances as a part of their workday. You will be taught how to effectively identify and manage driver fatigue. Also covered are lack of sleep, stress, diet, medications, micro naps, night driving and grave yard shift.

Run Time: 19 Minutes

7.131 Social Media: Reduce the Risk

This video uses a storyline approach to help organizations mitigate potential risks resulting from participation in social media networks. It can be used to accompany the rollout of an organization's social media policy or as a standalone training to heighten awareness.

Run Time: 21 Minutes

7.132 Heat Stress: Real Accidents, Real Stories

Viewers will listen to a set of attention-grabbing personal accounts of incidents when safety was neglected in high temperature situations. You will gain an understanding of the many hazards of working in the heat, including dehydration, heat cramps, heat stroke and heat exhaustion and how to prevent them.

Run Time: 15 Minutes

7.133 Resisting the Flu

This video educates your staff on how to prevent transmission of the seasonal flu, care for themselves and others, and recognize danger signs that require urgent medical attention.

Run Time: 12 Minutes

General Accident Prevention (continued)

7.134 It Could Happen to You

Always be attentive and aware because accidents can happen to you.

Run Time: 5 Minutes

7.135 Fire Safety: It's Everyone's Job

When it comes to fires prevention your actions are critical. This video will show you how to recognize fire hazards and will explain what to do to correct them. Housekeeping, electrical, heat sources and planning are topics also covered.

Run Time: 14 Minutes

7.136 Horseplay Is No Joke

Nobody realizes the seriousness of how dangerous horseplay can be until it's too late. Horseplay on the job causes thousands of injuries every year. It is never harmless. In this video you will learn why horseplay is so dangerous, why it can't be tolerated and what you can do about it.

Run Time: 11 Minutes

7.137 Early Defibrillation for the Workplace

This video provides an overview of the knowledge needed to provide early defibrillation to a person who has experienced cardiac arrest. Learn the chain of survival.

Run Time: 20 Minutes

7.138 Evaluating Near Miss Accidents

A near miss is any incident which could have led to damage to property or injury to employee but didn't. If changes are not made an accident is very likely to happen. The only difference in a near miss and an accident is the outcome.

Run Time: 6 Minutes

7.139 Too High a Price to Pay: Remember Charlie

Imagine being burned over 45 percent of your body....and you have no one to blame but yourself. This is the story of Charlie Morecraft, an Exxon refinery worker who was seriously injured in an explosion. This video will change your employees' attitudes toward safety, making it a priority.

Run Time: 12 Minutes

General Accident Prevention (continued)

7.140 A Visit With Charlie

Charlie Morecraft was an Exxon refinery worker who was seriously injured in an explosion. This compelling video, filmed with Charlie at a Boeing factory, gives the viewer a very intimate experience of sitting down with Charlie and having his personal questions addressed. He addresses the struggle of co-workers supporting one another in being safe on the job, the need for labor management to work together and on the same team, the possibility of cultural change, and the bottom-line of why accidents happen.

Run Time: 15 Minutes

7.143 Dust Masks

Airborne particles can pose potential health hazards in the working environment. Dust and mist even at low levels may be dangerous to a worker's health if the proper safety precautions are not observed. Dust Mask respirators filter out these unsafe particles and allow you to breathe uncontaminated air effectively.

Run Time: 6 Minutes

7.144 Training on the Selection and Use of Respirators

Anyone wearing a respirator must be trained and authorized by the company in several different areas such as how to put on and take off the respirator properly. Proper fitting procedures are covered and so are different types of respirators.

Run Time: 29 Minutes

7.145 Safety Coaching: What's Wrong with this Picture?

This video covers some proper lifting techniques, personal protective equipment, hazard communications and fire protection.

Run Time: 14 Minutes

7.146 Basic Electrical Safety

This video gives you a basic understanding of electricity and demonstrates why all employees should use extra caution when using electrical equipment and appliances. It also covers different types of electricity, such as static electricity. How to prevent electrical shock and other potential electrical hazards are discussed. And the safe use and inspection of electrical cords and electrical circuits are also covered.

Run Time: 10 Minutes

General Accident Prevention (continued)

7.147 PPE: Head to Toe

This program provides an easy to understand overview of the variety of PPE available to help make our work safe. It emphasizes the importance of wearing the proper PPE by showing an re-enactment of an arc flash incident that could have been tragic had the person not been wearing the proper PPE. The worker involved describes the incident and how his PPE saved him from injury. Other interviews with workers who avoided eye and foot injuries reinforce the safety message. Great for new employee training.

Run Time: 15 Minutes

7.148 Blink! A Practical Approach to Workplace Stretching (With Michael Melnik)

We blink our eyes when they are tired. Michael Melnik explains how the muscles in our bodies respond a lot like our eyes. If they work too long without a break, they also get sore and tired. We should also stretch (or blink) our muscles when we are using them a lot and they are getting tired.

Run Time: 10 Minutes

7.149 A Better Way to Lift (With Michael Melnik)

Michael Melnik is a leading speaker on back injury prevention. In this video he goes over not only how to prevent back injuries during lifting, but also how to prevent back injuries in our daily activities.

Run Time: 14 Minutes

7.150 Aquatic Risk Management: Keeping Your Head Above Water

The number and complexity of aquatic facilities has grown significantly over the years, which has contributed to the increased risk of drowning, spinal injuries, slips, falls and other serious incidents. This video was created to assist public entities in avoiding some of the risks associated with operating swimming pools and aquatic facilities.

Run Time: 25 Minutes

7.151 Why Dogs Attack...

If residential routes are part of your job, then this film is a must see. It covers how to spot an aggressive dog, how to prevent yourself from getting bit, and steps to avoid dogs during your route.

Run Time: 18 Minutes

7.152 Ladder Safety

Over 300 people are killed every year and 165,000 are injured while using ladders. This safety video will help keep you and your employees safe while using ladders. Topics include: Selecting the Right Ladder; Inspecting Ladders; Transporting and Setting up Ladders; Working on Ladders; Ascending and Descending Ladders Safely.

Run Time: 17 Minutes

7.154 Chainsaw Safety

Run Time: 13 Minutes

General Accident Prevention (continued)

7.155 Pro-Active Safety Attitudes: Looking Out for Number One

Incidents don't have to happen, and you have to spot them before they do. Take a unique look at safety training with this program. It explains the three-step-formula for an incident-free workplace: prevention, responsibility and protection - and features gripping interviews of workers who've met nasty accidents at work.

Run Time: 15 minutes

7.156 Social Media at Work

Social media is everywhere, including our workplaces. While it can serve useful business purposes, it can also open the door to hackers, circulate rumors and abusive comments, create public relations nightmares, and be a real drag on productivity. And it's not just during the workday. After-hours posts can also have an impact if they violate policies or cause friction between coworkers. Technology cannot be avoided. But it needs to be used wisely and appropriately. Take advantage of this new release to make an impression on employees: 'Do your own stuff on your own time and THINK before you post.'

Run Time: 14 minutes

Hazardous Material

8.012 Hazard Awareness is Everyone's Responsibility

Public entity employees are exposed to a variety of hazardous conditions that can result in serious injuries and property damage. This video discusses how a three step hazard awareness program including hazard identification, evaluation and control can prevent these accidents from occurring. Common physical, environmental and behavioral hazards are shown. The **MANUAL** that is sent with this video includes a variety of safety inspections forms, photos of common hazardous conditions, behavior based safety checklists, a risk matrix and tips on how to implement a job safety analysis program.

Run Time: 21 Minutes

8.013 An Introduction to the Globally Harmonized System (GHS)

The prime reason for GHS is to standardize the classification and labeling of chemicals on a worldwide basis according to their health, physical and environmental hazards. With one unified system we can feel safe and secure that the best practices are applied in the handling, storage and transport of dangerous chemicals. The purpose of this program is to introduce you to what you will need to know about the new

GHS that OSHA will adopt. You will learn how it differs from traditional OSHA Hazcom and also how to implement the changes. Changes in MSDS and employee training will also be addressed.

Run Time: 20 Minutes

8.014 **HAZWOPER: Identifying Hazardous Materials**

Before we can begin to understand the identification of hazardous materials, we first need to look at the toxicology of potentially harmful chemicals and hazardous materials. This video helps to educate you on hazardous materials and how to protect yourself from them.

Run Time: 13 Minutes

8.015 **Resource Conservation Recovery Act**

Over forty million tons of hazardous waste is generated annually in the United States. It is important that this waste is handled and disposed of properly to ensure your health and safety.

Run Time: 13 Minutes

Law Enforcement

9.044 **Irate Motorist**

A traffic stop in Maine enrages a motorist to the point where extraordinary restraint must be used by the officer involved.

Run Time: 24 Minutes

9.047 **Dealing With the Mentally Ill and Disturbed Subjects**

This video features the Albuquerque, New Mexico Police Department which is at the very forefront of officer training for dealing with the mentally ill and disturbed. Mental health experts with the department are interviewed at length for their expertise. Also, you will ride with Albuquerque officers to see first hand how this department is implementing their strategy and why it has become the most state-of-the-art in the entire country's law enforcement community.

Run Time: 60 Minutes

9.050 **Staying Calm Under Pressure (Dispatchers)**

Dispatchers are often the most neglected yet vital link in the lifeline of any major incident. This video training program includes vital tips and “lessons learned” from experts in dispatcher training.

Run Time: 30 Minutes

9.062 **Incredible Montana Pursuit / Shootouts Caught on Tape**

This is a breathtaking chase and shootout caught on tape. Montana law enforcement officers pursue a suspect in a bar shooting in which one person was killed and seven others wounded.

Run Time: 56 Minutes

9.063 **Wisconsin Officers Stop Jumper and Save Baby Dumped from Car**

Two separate incidents and two lives saved!! You will be proud of your fellow officers when watching this video.

Run Time: 47 Minutes

9.064 **A Cop’s Life Saver: Passenger Side Approach**

Law enforcement officers all over the country are changing their approach as a result of this video. The whys and wherefores of the passenger-side approach are demonstrated with dramatic evidence of how it saved one officer’s life.

Run Time: 38 Minutes

Law Enforcement (continued)

9.065 **Missed Patdown Horror Story**

San Bernardino municipal and county officers made a mistake that could have been more deadly than it was when they arrested a man accused of shooting an officer. A gun hidden in the man’s waistband was missed in a patdown. The man pulled the gun in a holding cell and committed suicide. He could have shot an officer. Important lesson learned here.

Run Time: 36 Minutes

9.066 **What Dogs Tell Cops**

Within a period of less than a year, 2 Tennessee officers put down dogs in separate incidents. It led to a national outcry and to a need for officers to better understand animal behavior. This program is designed to do just that, and to provide useful information for officers to protect themselves if attacked by dogs.

Run Time: 36 Minutes

9.067 Updated Cincinnati White Castle Incident

Sometimes officers can do everything right and things still go wrong. In this case, a druggie high on a variety of drugs resists officers. After a long struggle, he is subdued, but moments later, dies. This program is a must see for every street cop.

Run Time: 54 Minutes

9.068 Hanahan SC Cop Run Over During Stop Attempt

A drug suspect refuses to get out from behind the wheel of a vehicle during a bust. Instead, he drives forward and bumps an officer. Fearing for their lives, other officers open fire, killing the subject.

Run Time: 45 Minutes

9.069 Courthouse Security / What Every Cop Should Know

The deadly Fulton County Courthouse triple murder in Atlanta has brought attention to the courthouse security issue. This program is focused on the law enforcement officer who is involved in any aspect of courthouse/courtroom security.

Run Time: 51 Minutes

9.070 MO Cop's Street Smarts Nail Twin Killers

A young man and his sister were en-route to Las Vegas after killing their mother and grandparents in Indianapolis. Traveling over the speed limit in Missouri, they were stopped by a deputy. His alert questioning produced indicator after indicator that something was wrong. Roadside cooperation with Indiana officers and professional questioning soon brought a confession and arrests.

Run Time: 45 Minutes

Law Enforcement (continued)

9.071 Interrogation Techniques on the Street and at Headquarters

Proper interrogations can be a key ingredient in solving crimes and providing evidence for a conviction. It can be a patrol officer interrogating a subject at the scene, or a detective back at headquarters. Cases are made and broken through the interrogation process. Learn the proper techniques from the experts.

Run Time: 45 Minutes

9.072 Shreveport Officers Kill Cell Phone Wielder / Use of Force

Imagine yourself chasing a suspect who turns and points what appears to be a gun at you. You fire. The "gun" turns out to be a cell phone. You can imagine the outcry. Months and months after this incident, it is still generating conversation.

Run Time: 32 Minutes

9.073 Groundfighting for Female / Smaller Officers

It happens every day. Smaller officers, many of them female, are confronted by much larger subjects. It doesn't have to be a disadvantage and won't be after viewing this very instructive video. Trainer Herb Hood, one of the most respected groundfighting instructors in the country is featured with ground fighting tactics smaller officers and all officers can use.

Run Time: 31 Minutes

9.074 What Every Law Enforcement Agency Should Know About Tasers

The taser has rapidly become one of the most important less lethal tools ever for law enforcement officers. In this video you can (1) learn answers to the most frequently asked taser questions, (2) learn different funding sources to help you purchase tasers, (3) learn exactly how to approach city governments about buying tasers, (4) get clarification on taser issues in the news and (5) see tasers in a wide variety of uses and training modules.

Run Time: 45 Minutes

9.075 Officer Shot and Killed After Missing Weapon Patdown

A suspected cop shooter is arrested by two St. Louis officers. It turned tragic when they missed a weapon on a patdown. The subject uses the hidden weapon to kill one of the arresting officers. This program features complete and thorough patdown training.

Run Time: 35 Minutes

9.076 Weapon Retention Training

One of the nation's premiere law enforcement trainers, Herb Hood, provides complete and thorough training on his newly-developed and easy-to-learn weapons retention system. This is a must and possible life-saver for any officer working the street.

Run Time: 34 Minutes

Law Enforcement (continued)

9.077 Michelle Jeter Beating (Power Point Included)

Texas female Officer Michelle Jeter was nearly beaten to death during traffic stop. This is the first ever in-depth training interview from Officer Jeter.

Run Time: 35 Minutes

9.078 Utah Cruiser Stolen (Power Point Included)

When arrested, a female somehow gets behind the wheel and drives away. A Utah officer's cruiser is taken.

Run Time: 29 Minutes

9.079 Iron Will to Succeed # 4: Mobile Officer in Chase/Shootout (P.P. included)

This is a dramatic video showing officer resourcefulness and courage during a highly dramatic and harrowing incident.

Run Time: 32 Minutes

9.080 Poise Under Pressure: Texas Deputy Profaned (Power Point included)

A black Texas deputy is profaned during a traffic stop. The video illustrates lessons learned on maintaining professionalism and poise under pressure.

Run Time: 29 Minutes

9.081 LA Cop Conned by Escaped Killer (Power Point included)

An escaped Federal prisoner is stopped by a Louisiana officer, but the subject is allowed to leave despite many signs pointing to him as the escapee. Top to bottom cruiser cam video. Lessons and analysis.

Run Time: 29 Minutes

9.082 Murder of Texas Trooper Vetter (Power Point included)

It is entirely caught on tape: an elderly rifle wielder guns down a Texas trooper and then stands idly by, rifle in hand, as back-up officers arrive. One of the most stark and overwhelming training videos. This video contains interviews with officers involved and innumerable lessons learned and expert analysis.

Run Time: 32 Minutes

9.083 Indiana Bank Robberies (Power Point included)

This scenario is complicated by the fact that the chase crosses state lines, which raises jurisdictional and communications issues.

Run Time: 39 Minutes

Law Enforcement (continued)

9.084 Cop Shot in Face; Kills Assailant (Power Point included)

A Georgia Deputy iron will to survive....He is shot in the face and he kills the assailant.

Run Time: 31 Minutes

9.085 The Stop of the Century/Tim McVeigh (Power Point included)

The Oklahoma State Trooper who stopped Timothy McVeigh after the Oklahoma City bombing talks about on of the most important stops in history. Learn how it all came about and how little things can mean a lot.

Run Time: 33 Minutes

9.086 Could a Russian School Siege Happen Here? (Power Point included)

The attack by terrorists at an elementary school in Russia may not be as far off as it seems. Shortly after this deadly incident in which more than 300 people died, detailed plans of several U.S. schools were found in raids against Islamic terrorists. One of the world's most respected law enforcement consultants provides absolutely critical insight regarding a possible "Russian school Siege" in the U.S.

Run Time: 31 Minutes

9.087 Dealing With a Naked Subject (Power Point included)

Information compiled by the prestigious Force Science Research Center at the University of Minnesota-Mankato provides the basis for this video. A lot can be going on when law enforcement is called to deal with a naked person.

Run Time: 32 Minutes

9.088 When One Incident Becomes Several (Power Point included)

The Utah officers were nearly wiped out during a snowy stop by an out-of-control vehicle.

Run Time: 29 Minutes

9.089 Edged Weapons Training/Knives Can Kill You Fast

In this video, one of the leading law enforcement experts in the world teaches and trains you to survive a knife attack/assault. This program provides step-by-step training.

Run Time: 41 Minutes

9.090 IL Cops Intuition Pays Off / Drug Interdiction

This video illustrates excellent police work by a young IL officer who stopped a suspicious vehicle and ultimately found nearly a million dollars in drugs hidden. This is a top to bottom video of the incident and a complete analysis.

Run Time: 36 Minutes

Law Enforcement (continued)

9.091 Gangs Update

Through in-depth interviews with law enforcement gang experts, learn about trends in a wide variety of gang-related activity. To be included are updates on Hispanic gangs, Russian gangs, Asian gangs and Street gangs.

Run Time: 52 Minutes

9.092 Back Safety for First Responders

While your EMTs, firefighters and law enforcement officers take care of others, you have to take care of them. To keep them healthy, lean on these solid safety techniques and exercises to keep their back muscles strong and flexible. Some topics discussed in this video are: 1)Back structure, 2)Repetitive stress illnesses/reverse stretching, 3)Common first responder back injuries, 4)Proper lifting techniques, 5)Training points for handling stretchers, gurneys and fire hoses.

Run Time: 19 Minutes

9.093 Alabama Officer Beating

An Alabama officer is severely beaten after a subject attacks him during a nighttime traffic stop. The assault occurs as the officer attempts to handcuff and arrest the individual for D.U.I. The incident is analyzed and critiqued from top to bottom including in-depth interviews with the officer and his back-up. The program includes an excellent tutorial on subjects' body language which will help all officers identify potential danger signs.

Run Time: 42 Minutes

9.094 Groundfighting: Officer Fights for Life

An Alabama officer gets into a violent fight with a subject who takes a gun from the officer's ankle holster. The resulting shoot-out ends with the subject's death. This dramatic segment features an in-depth interview with the officer and a training segment dealing with groundfighting.

Run Time: 44 Minutes

9.095 High Speed Pursuit Takes on Epic Proportions

A pursuit through Ohio countryside takes on epic proportions when officers from many agencies become involved. The pursuit on narrow, rain-slicked roads will offer many points for discussion and training. Also included are interviews with the officers involved.

Run Time: 44 Minutes

9.096 & 9.097 Groundfighting Training: Parts 1 and 2

Both of these programs feature superb groundfighting training scenarios taught by nationally-regarded D.T. instructor Sgt. Herb Hood of the Cincinnati Police Division. Not only the training but also many video clips are analyzed in which both police and security officers found themselves in groundfighting situations.

Run Time, Part 1: 29 Minutes

Run Time, Part 2: 42 Minutes

Law Enforcement (continued)

9.098 Corrections/Jailer's Safety 2

In part two, officers gain critical insight into response to jail, prison melees and remaining calm & observant....mental preparation for riot situations....also, inmate scams on officers are explored which is vital especially for new officers; awareness of inmate lying and subterfuge is examined.

Run Time: 31 Minutes

9.099 Facing Disaster: Part 1

Any community can face disaster in the form of a vicious storm, an accidental calamity, and now potentially, a terrorist attack. This first of a two part series of training videos deals with the havoc wrought by catastrophe. Although this was an anticipated event, because there were warnings, preplanning proved insufficient.

Run Time: 48 Minutes

9.100 Facing Disaster: Part 2

This second of the two part series discusses preplanning and response to such unexpected disasters as a terror attack, possibly involving weapons of mass destruction, or a catastrophic accident. Such events are possible anywhere, and law enforcement will be right in the thick of it.

Run Time: 44 Minutes

9.101 Drug-Terror Related Traffic Stops

Retired Maryland State Trooper Mike Lewis, now Sheriff of Wicomico County, Maryland, takes us step-by-step through effective interdiction stops, legal and officer safety considerations, and effective case documentation and presentation.

Run Time: 36 Minutes

9.102 Drug Concealment Spots

Hidden compartments (traps) and what they contain are limited only by the imaginations of those who transport contraband. In this program, Retired Maryland Trooper Mike Lewis, Fairview Heights (IL) Police Chief Ed Delmore, and Agent Chris Utley from the 21st Judicial District (TN) Drug Task Force demonstrate these hiding places and their contents, discovered in traffic stops on US interstate highways.

Run Time: 32 Minutes

9.103 Textbook Traffic Stops

Some of the best arrests an officer will make will begin with a traffic violation. It's essential to know the traffic code in their jurisdiction, and the best practices for conducting such stops to make each encounter as safe and professional as possible.

Run Time: 32 Minutes

Law Enforcement (continued)

9.104 Fort Oglethorpe Shootout / OIS Fatal

In this program, we will watch as a Georgia officer stops a subject with an active warrant. This stop soon turns lethal and we will discuss the many lessons learned covering topics such as use of lethal force, communications and back-up.

Run Time: 25 Minutes

9.105 OH Officer Groundfight/Off-Duty MO Officer Kills 4 While DUI

In this program, an Ohio officer stops a vehicle for a suspected hit and run incident. The stop soon turns into a violent physical confrontation. Many issues are covered such as knowing when to move up the force continuum, detecting signs that a suspect is getting ready to engage you physically and reacting when your taser doesn't work properly.

Run Time: 20 Minutes

9.106 **Cops and Ethics: 2011 Edition**

This video presents ethical situations faced by real law enforcement officers and both their positive and negative response. It focuses on real-world situations, the response, and the consequences. Not all of what is included is flattering to law enforcement. It is from these situations that we hope to reinforce the need for ethical response.

Run Time: 25 Minutes

9.107 **SC Trooper Shot**

This program discusses the elements involved in investigating and prosecuting a domestic violence case. Thorough police work can make the prosecutor's job much easier by documenting the incident with copious note-taking, use of cameras, and even audio recordings of the victim's account.

Run Time: 26 Minutes

9.108 **Traffic Stops of Sovereign Citizens**

Run time: 40 Minutes

9.109 **Emergency Response Driving**

As an emergency responder it's your job to save and protect lives and property. It's critical that you arrive to the scene of an incident quickly and safely. There are risks involved anytime you get behind the wheel of a vehicle, but when you are driving an emergency vehicle with lights and sirens blaring, those risks are multiplied.

Run Time: 17 Minutes

Law Enforcement (continued)

9.110 **Use of Force: Report Writing**

Featuring nationally-prominent law enforcement trainer and educator Lt. (Ret.) Kevin Dillon teaching the critical importance of writing and reporting your perceptions as well as transparency in report writing. Perfect for classroom, in-service, academy, and roll call training.

Run Time: 35 Minutes

9.111 **Body Cameras: What Every Cop Needs to Know**

Learn from one of the law enforcement trailblazers how the body camera has been a huge success lowering officer injuries, dramatically lessening use-of-force claims, substantially lowering citizen complaints, assisting in report writing, helping bolster prosecutions, and much more.

Run Time: 31 Minutes

9.112 Career Survival/How Not to Wind Up in Internal Affairs

A brief overview of the many ways in which cops have jeopardized their careers, and the life and safety of others in some cases, through lapses in judgement to outright criminal behavior.

Run Time: 25 minutes

9.113 Murder of an Arkansas Officer

With the help of the Trumann Police Department, we hope to provide critical guideposts for officers who may fall prey or victim to the potential tragedy of complacency.

Run Time: 60 minutes

9.114 Col. Dave Grossman/Identifying and Stopping Active Killers

Active Killers: Who are they? What are their traits? What can cops, and the hundreds of thousands of gun-free zones in America, do to stop them?

Run Time: 44 minutes

9.115 What Every Cop Needs to Know About Terror and Terrorists

This is a must program for American law enforcement. It is complete with vital information on dealing with the new terrorist in this country, including what to look for and what to do when you find it.

Run Time: 48 minutes

9.116 Ferguson/The Lessons Learned

Chief Belmar was at the epicenter of this incident that garnered international attention. In this extensive interview he discusses tactics, community relations, safety and many of the other things that took place during that tumultuous time in Ferguson, MO.

Run Time: 103 minutes

Law Enforcement (continued)

9.117 AL Officer Stabbed to Death: Tragic Events & Lessons Learned in Mobile

An Alabama officer, whose dream from childhood was to become a cop, has the dream shattered when he is knifed to death in a jail sally port after a missed patdown. The incidents of that day ended as a tragic lesson on why you can never be too careful.

Run Time: 47 minutes

9.118 Ambush Recognition/What Every Cop Needs to Know

This training program will cover all aspects of ambush recognition. From tactics employed by bad guys to lure in cops, to response protocol once you realize you are in an ambush situation.

Run Time: 95 minutes

9.119 **Verbal Judo I/Body Language**

It's called "martial arts for the mouth" and is yet another weapon in the street officer's arsenal. George Thompson has a national reputation for teaching officers how to communicate with subjects in a manner which will maximize compliance, and minimize risk. In this program, Thompson goes over his 5 and 8 step programs point by point and explains why and how you can be more effective in communicating on the street.

Run Time: 38 minutes

9.120 **Verbal Judo II**

George Thompson says words may fail, but verbal judo does not. In this program, we examine his pioneering technique called SAFER: what to do when words do fail. This is a must for all street officers. In addition, we discuss heart attacks from the cop's perspective Including the stresses that cause heart problems, the warning signs, and treatment.

Run Time: 34 minutes

9.121 **De-escalation: Common Sense Tips for All Cops**

This training program covers one of the biggest hot-button issues in law enforcement today.....de-escalation. Taken from classroom instruction by Officer and instructor Chris Stoaks of Bend (OR) Police Dept., “**de-escalation is what happens in-between contact and resolution**”. This program is designed for the street officer who comes in contact with people, in high-stress and troubled circumstances, and gives them the tools to, possibly, de-escalate the situation.

Run Time: 1 Hour

9.122 **Foot Pursuits/America’s Most Wanted**

A South Carolina officer is shot to death during a foot pursuit when he is surprised by the subject who has hidden—and leaps out, shoots and kills the patrolman.

Run Time: 32 Minutes

Office Safety

10.010 **Office Ergonomics: It’s Your Move**

Every year nearly two million American workers suffer musculoskeletal disorders (MSDs). From pinched nerves and strained muscles to inflamed tendons and sore necks, these mild injuries occur when our bodies take a beating beyond their ability to recover. And their effects stretch beyond the physical, workflow reduction, efficiency disruption, absences and decline in productivity. MSDs can strike anyone...even people who work in offices. This program examines the nature of this problem and what you and your employees can do to prevent it.

Run Time: 16 Minutes

10.012 **Office Safety**

Office employees frequently have the feeling that since they don’t work out on a plant floor safety isn’t an issue in their jobs. Yet accidents and injuries in the office account for thousands of hours of lost time, and millions of dollars in Workers’ Compensation and medical costs. This safety video on Office Safety shows

employees what hazards exist in office environments, and how important it is to use good safety practices as they go about their work.

10.013 Safety in The Office

Designed to raise awareness of safety hazards in an office environment. This safety video focuses on the most common hazards found in an office. Topics include: Basic Ergonomics, Ladders, Office Equipment, Slips and Falls, Safe Lifting and Fire Prevention.

Run Time: 7 Minutes

10.014 Slips, Trips & Falls – Keeping Your Workplace Safe

This video shows specific procedures that can raise safety awareness throughout your organization and help prevent accidents. Points Covered: Obstructions in Walkways, Spills & Slippery Surfaces, Winter Weather Hazards, Placement of Warning Signs & Mats, Staircase Safety and Proper Use of Ladders.

Run Time: 21 Minutes

10.015 Remote Worker: Safety, Health & Security

In today's technology-driven and ever-changing world, the ability and necessity of working from home or at a remote location is on the rise. The program discusses in detail the various hazards that can be found in the home work environment and the safe practices remote workers can follow to control them. Topics include selecting a location for a home workspace, maintaining a "workplace mindset," fall prevention, fire safety, home office ergonomics, the ergonomics of cell phones and tablets, and computer security for the remote worker.

Run Time: 19 Minutes

10.016 COVID-19: Staying Safe at Work for Employees

This program outlines the control measures found in a typical workplace infection control plan and how those measures are put into practice to prevent the spread of COVID-19 at work.

Run Time: 23 Minutes

Office Safety (continued)

10.017 COVID-19: Staying Safe at Work for Employers

Now, for many employers, it's time to ramp up operations and allow employees to return to work. The good news is we can stay safe at work. This program explains the control measures found in a typical workplace infection control plan and explains how those measures are put into practice to prevent the spread of COVID-19 at work.

Run Time: 21 Minutes

Safety Management / Administration

11.004 Drug Testing

A recent study by the national institute on drug abuse reports that a large percentage of employed people are drug users.

Run Time: 5 Minutes

11.007 Effective Safety Meetings

Get the most out of work hours spent on training by sharpening your skills at creating highly effective safety meetings.

Run Time: 5 Minutes

11.024 Achieving a Drug Free Workplace: A Supervisor's Responsibility

Drug use makes job performance go down, accidents go up and safety violations go through the roof. A drug free workplace program helps to prevent these problems and along the way maybe even show the worker that he/she needs help.

Run Time: 36 Minutes

11.025 Achieving a Drug Free Workplace: An Employee's Perspective

Drug use makes job performance go down, accidents go up and safety violations go through the roof. A drug free workplace program helps to prevent these problems and along the way maybe even show the worker that he/she needs help. This video also helps employees to understand the drug testing process and the role of the Medical Review Officer.

Run Time: 28 Minutes

11.026 Accident Investigation

Accident Investigation is an important part of a supervisor's responsibility and accident prevention. An investigation answers the questions of who, what, when, where, how and why. It may also include photographs, sketches, witnesses, engineering and maintenance investigation.

Run Time: 12 Minutes

Safety Management / Administration (continued)

11.027 The Proper Operation of a Safety Committee

This video shows you how to develop an effective safety committee, utilizing all the talent and experience of labor and management most effectively.

Run Time: 15 Minutes

11.029 Responsibilities of a Supervisor

This video gives great advice on people management, which is a supervisor's primary responsibility.

Run Time: 19 Minutes

11.030 Safety Management in Action

A safety Management System is a process of continuous improvement that helps employees realize the benefits of working safely, minimizing accidents and reducing claims. This video discusses barriers to effectively managing a safety program and offers tips on how to overcome these barriers through management support and commitment; implementation and operation; accountability; and measurement and improvement.

Run Time: 22 Minutes

11.031 Four Generations: The Greatest Potential

With four generations in today's workplace, differences in attitudes, values, and communication can create misunderstandings and trigger conflicts that reduce morale, teamwork, and productivity. But these differences need not be barriers to a bigger bottom line. "Four Generations: The Greatest Potential" profiles each generation's attitudes, mindsets and values, and helps your employees understand and work with each other.

Run Time: 23 Minutes

11.032 Drug Free Workplace: Lose the Drugs, Keep the People

Productivity, quality, safety, and morale are just a few critical areas negatively impacted when workers abuse drugs and alcohol. This program discusses the multitude of dangers associated with drug and alcohol abuse and the actions viewers should take if they suspect someone, including themselves, has a substance abuse problem.

Run Time: 10 minutes

Sanitation – Trash / Recycling

12.015 Solid Waste Safety: Rear Loaders

This is a great waste management video for either the driver, or the helper on a rear loader solid waste truck. Topics on the garbage truck DVD include: truck operations, helpers, loading the truck, can sites, improper can sites, container blockages, landfill safety, dumping and residential safety.

Run time: 11 Minutes

12.016 Solid Waste Safety: Front Loaders

This garbage truck DVD covers basic operating procedures and techniques for front-end loaders and helpers. Information included on the waste management training video includes dumping procedures, hoppers, landfill dumping and general safe operating procedures when using this equipment.

Run time: 13 Minutes

Violence In The Workplace

13.001 Violence in the Workplace

Today more than 1,000 Americans are murdered on the job.

Run Time: 5 Minutes

13.007 Managing the Anger to Prevent the Violence

Being able to identify and understand how and why people turn violent may help you and your organization avoid such incidents from occurring in your workplace. This program looks at the causes of workplace violence and explores some of the common myths and mysteries associated with workplace violence. Also discussed are some methods of prevention that may help you and your fellow employees to stay safe, stress free and productive.

Run Time: 10 Minutes

13.012 **Dealing with the Irate Customer**

This customer service video includes valuable tactics, including: Connect with the angry customer, Show empathy or apologize if appropriate, Guide the customer's attention toward solving the problem, Use positive language, Have the customer make small decisions, Take a timeout or draw the line, Know what you can offer.

Run Time: 20 Minutes

Water / Water Waste Department

14.008 **Respiratory Protection: A Breath of Fresh Air**

This video teaches employees how to protect themselves while working in hazardous atmospheres.

Run Time: 18 Minutes

14.017 **Confined Space Entry**

Many workplaces contain spaces that are considered "confined" because their configurations hinder the activities of employees who must enter, work in, and exit them. A confined space has limited or restricted means for entry or exit, and it is not designed for continuous employee occupancy. Confined spaces include, but are not limited to underground vaults, tanks, storage bins, manholes, pits, silos, process vessels and pipelines. This video will help assist employers in training their workers about confined space entry safety.

Run Time: 20 Minutes

14.018 Excavation and Trenching

There are many hazards associated with excavation and trench work. Some topics covered in this video are: soil analysis, competent person, protective systems, access and egress, excavated materials (spoil), confined spaces, mobile equipment and surface.

Run Time: 15 Minutes

14.019 Trenching and Shoring Safety

Topics included in the safety video are: Causes of fatalities, soil, causes of cave-ins, what is a trench, OSHA standards, what the competent person must do, inspections, hazardous atmospheres, water control, soil classification, manual testing, and the pocket penetrometer.

Run Time: 29 Minutes

14.020 The Buried Truth with Eric Giguere

This is a true story about how a work related accident changed Eric Giguere's life, as well as his personal commitment to safety awareness. Eric's video is a valuable tool for companies with a need for safety awareness.

Run Time: 41 Minutes

Work Zone Safety

15.005 Highway Work Zone Safety

Being safety conscious, traffic control devices, slowing down traffic, detour, closures, and communication are all covered in this video.

Run Time: 15 Minutes

15.006 Highway Work Zone Safety 2

This video addresses the proper steps to setup a work zone that is safe for workers and traffic. Also includes traffic control devices and trained flaggers.

Run Time: 12 Minutes

15.007 **Traffic Control Safety**

Work zone traffic is an important part of any well planned construction or maintenance project. Traffic control is essential to protect both the public from hazards associated with the project and the employees on the work project from traffic.

Public Official Liability Training

16.005 **Workplace Harassment, Discrimination & Respect**

Run Time: 17 Minutes

16.006 **In the Scope of Your Authority: Preventing Public Officials' Liability**

This video discusses how elected and appointed officials can avoid mistakes that can lead to liability claims and identifies best practices that will allow officials to be successful. Key topics include quasi-judicial hearings, legislative matters, delegating administrative and personnel issues, electronic communications, and maximizing liability protections.

Run Time: 17 Minutes

16.007 **Special Events.....Special Liabilities**

Concerts in the park, festivals lasting several days, even frog jumping contests are special events with very unique liabilities for public entities. This video emphasizes the importance of pre-event planning. It covers topics such as site safety surveys, crowd control, establishing emergency plans, traffic control, common liability exposures and special insurance requirements.

Run Time: 17 Minutes

16.008 Recreational Activity Liability

This video is designed to help supervisors and managers of recreational facilities identify physical and personnel exposures, and controls to help prevent accidents. Topics include safety for swimming pools, gymnastics, skateboard facilities and ice rinks.

Run Time: 16 Minutes

16.009 Managing the Risks of Volunteers

They coach, assist in community clean-ups and even help fight fires; but volunteers are often exposed to risks of injury, and your public entity to resulting risks of liability. This video will help you identify, plan and address the various risks of your volunteer program, while providing useful tips such as appointing a volunteer coordinator, establishing a volunteer management program, evaluation potential safety hazards and reviewing insurance coverage.

Run Time: 16 Minutes

16.010 Preventing Sexual Harassment for Employees

Sexual harassment is a workplace issue that if properly handled can be of little consequence to you and your company. You play a vital role in preventing sexual harassment from occurring at your company. Not handled properly, sexual harassment can take a toll on the victim, their family, friends, coworkers and your company. This video covers these areas: defining sexual harassment, potential victims and harassers, inappropriate workplace behaviors, preventing sexual harassment at work and what to do if it occurs.

Run Time: 18 Minutes

Public Official Liability Training (continued)

16.011 Preventing Sexual harassment for Managers

Sexual harassment is a workplace issue that if properly handled can be of little consequence to you and your company. You play a vital role in preventing sexual harassment from occurring at your company. Not handled properly, sexual harassment can take a toll on the victim, their family, friends, coworkers and your company. This video covers these areas: managers and their role, what is sexual harassment, types of sexual harassment, potential victims and harassers, effects of sexual harassment, your company's sexual harassment policy and investigative procedures.

Run Time: 20 Minutes

16.012 Sexual Harassment – Training for a Harassment-Free Workplace Employee Version

What makes this new program unique is a sequence of original stories that convey important training points as seen through the eyes of the participants. The consequences and potential harm caused by hostile environment and quid pro quo harassment are clearly explained. And viewers also learn about protected characteristics, third-party harassment, retaliation and other forms of abusive behavior. And while sexual and other forms of illegal harassment are covered, our focus is on respect and consideration for others. The scenarios are meant to prevent unwelcome behavior BEFORE it escalates out of control. Our goals with this new program are to improve behavior overall, encourage communication and help create workplaces that are respectful, productive and harassment-free!

Run Time: 18 minutes

**16.013 Sexual Harassment – Training for a Harassment-Free Workplace
Manager Version**

Managers and supervisors will get a solid overview of their responsibilities to prevent unwelcome and harassing behavior from occurring in their workgroups, as well as guidance for appropriate responses to take if such behavior does occur. The video and accompanying study guide also provide managers with information on conducting investigations if this task falls within their job description—or how to participate in an investigation handled by a legal department, human resources, or outside expert, depending on organizational policies.

Run Time: 19 minutes

16.014 Preventing Discrimination for Managers

Workplace discrimination can be a serious problem, both for people and the companies they work for. It can be emotionally devastating for its victims, and it reduces productivity as well as increases expenses. Since discrimination is also illegal, it can also result in significant legal fees, settlements, and plaintiff awards. So, your employer depends on managers and supervisors like you to help prevent discrimination within your organization. In this video, we'll talk about the nature of discrimination, what you can do to prevent it, and how you should handle it if it does occur.

Run Time: 15 minutes

Public Official Liability Training (continued)

16.015 Preventing Discrimination for Employees

It's nice when other people make us feel special, but when we're singled out for unfair treatment because of who we are, that's another story. That type of behavior is called discrimination, and it's more common than you might think. Discrimination is bad for people and it's bad for business. It's also illegal.

This video discusses different types of discrimination that can be encountered on the job and the laws that have been passed to protect you from them. It also talks about how you should respond to discriminatory behavior if it occurs and what you can do to help prevent it in your workplace.

16.016 Diversity in the Workplace – Managers

Since the middle of the last century, our world has been steadily growing smaller. Advances in transportation, communication, and technology have made people everywhere more mobile. As a result, the variety of people

in the workforce has been increasing as well. While a diverse workforce offers significant benefits, it can also bring its own challenges. Employers depend on managers and supervisors to avoid the potential pitfalls, while making the most of each employee's potential.

In this video we'll discuss the benefits of diversity and what managers can do to support and encourage this trend in the workplace. We will also examine common obstacles that they may encounter and the best practices for dealing with these problems if they do arise.

16.017 Diversity in the Workplace – Employees

Since the mid-1900s, our world has been steadily growing smaller. Advances in transportation, communication, and technology have made people everywhere more mobile. Increasingly, we live and work somewhere different than where we grew up. As a result, when we look around our workplace, what we see is a great variety in our coworkers. Embracing diversity can lead to significant benefits, both for people and the companies they work for, but if we are uncomfortable with diversity, it can result in real problems.

In this video, we'll discuss the benefits that diversity can bring to the workplace, the obstacles that can exist to accepting diversity among our coworkers, and things you can do to support and encourage diversity where you work.

Loss Control Seminars

17.001 Slip, Trip and Fall Hazards for Public Entities

Slips, trips and falls are a major cause of workers compensation and liability losses within public entities. This video presentation will address the recognition, evaluation and control of slip, trip and fall hazards in your workplace and community.

Run Time: 31 Minutes

17.002 Coping with Paperless Workers Compensation Reporting

This video contains line-by-line descriptions of the proper way to complete the first report of injury for workers' compensation claims. New electronic filing requirements are also discussed.

Run Time: 17 Minutes

17.003 **Hiring, Firing and Retention**

The most important asset of any organization is its employees. However, hiring and keeping good employees and, when necessary, getting rid of bad ones can be a mine field. This presentation is an overview of the key steps in the process of hiring and retaining good employees, as well as the necessary steps to take when there is no other alternative but to let an employee go.

Run Time: 48 Minutes

17.004 **Developing a Safety Culture**

Entities that successfully instill an effective safety culture do so by adopting safety as a core value and not just something that is mentioned at monthly meetings. The management and supervisors use safety as a method of showing support and belief in their employees. This demonstrates to employees that management does sincerely care about their health and safety. Proactive managers understand they must walk the walk and not turn their heads when hazards are presented, despite how insignificant they may seem.

Run Time: 64 Minutes

Transit

18.001 **Turn, Turn, Turn**

This safety video is made by Transit Mutual Insurance Corporation of Wisconsin. Transit Mutual has had a significant number of turning accidents that have resulted in large settlements. As a result, TMI Corporate Counsel wrote a script and had a short training program produced to remind drivers of the dangers when making right and left turns. Because each type of turn presents its own unique dangers and blind spots, right and left turns are highlighted in separate segments detailing the do's and do not's of driving a municipal transit bus.

Run Time: 10 Minutes

18.002 **Slip Sliding Away**

This safety video is made by Transit Mutual Insurance Corporation of Wisconsin. Driving a bus in wintery weather is challenging, hazardous and down-right dangerous, presenting different demands than any other time of the year. This program is intended to help drivers avoid accidents, reminding drivers of situations where extra caution is needed due to the weather.

Run Time: 7 Minutes

18.003 Seasons in the Sun: Driving Challenges in the Spring and Fall

This safety video is made by Transit Mutual Insurance Corporation of Wisconsin. This video highlights a number of scenarios that remind municipal bus drivers to anticipate potential dangers. Runners, roller bladers, bicyclists, kids playing ball games, etc. all create potential dangers when driving a municipal transit bus. Also discussed in this video is road construction and energetic student passengers.

Run Time: 9 Minutes

18.004 Bicycle Built for Two: Driving Challenges for Buses and Bikes

This safety video is made by Transit Mutual Insurance Corporation of Wisconsin. Buses and bicycles should be aware of each other and how each uses the streets. This will help bus drivers and bicyclists avoid accidents. This DVD will educate both municipal bus drivers and bicyclists on how buses maneuver, blind spots, and precautions to take to keep the roadways a safe place to travel.

Run Time: 9 Minutes
